### DR SANDRA ROSE MICHAEL

Dr. Michael is a Doctor of Naturopathic Medicine with a background in biophysics, quantum and nuclear physics. Throughout the pregnancy her mother was working on nuclear bomb technology, and she came into the world with a heavy load of radiation damage. Her life quest has been figuring out how to heal the body from the negative impacts of this technology.

In the 1970s, Dr. Michael started her work in the fields of chiropractic, reflexology, Ayurveda, nutrition, acupressure, Rife technology and radionics. By 1978 she had built her first scalar healing light chamber, which incorporated materials from NASA and generated scalar waves and biophoton energy. It was then that she began seeing healing miracles, one person at a time. Her goal from that point forward was to advance the technology to be able to help humanity on a grander scale.

### CLINICAL STUDY

Dr. Victor Marcial-Vega, trained at Johns Hopkins School of Medicine. He has done research at the National Institutes of Health (NIH) and the National Cancer Institute (NCI). He conducted an early clinical evaluation of the system entitled "Scalar Field Technology" and documented a number of anecdotal observations including:

**VISION** - "I noticed that the healing chamber would improve vision. A doctor friend had bilateral retinal detachments and was blind. There was no pupillary reflex, which meant that no light was reaching the optic nerve. Immediately after two hours of treatment, he could see light. After a few more sessions he could see shapes. Three months later he saw my face for the first time. Today he is driving a car."

**KIDNEY STONES** - "People who went in with kidney stones passed the stones painlessly right after being in the chamber."

**CHRONIC PERMANENT INJURIES & DISORDERS** - "People with chronic permanent injuries, nerve damage, muscle damage, bone damage, cartilage damage were able to start moving normally. Three patients expelled stitches from old scars from surgeries 20 to 40 years ago."

**PAIN CONTROL** - "The more chronic the pain, the better the chance of improvement. Patients were able to control their pain right after the treatment. Pain control has a 100% result so far. It is useful for pain control of all kinds including pain that requires narcotic medication."

**PARKINSON'S AND TREMORS** - "One of my patients with Parkinson's went into the chamber and has stopped shaking."

**STROKES** - "I've seen people with strokes being healed in one session."

**ANXIETY AND DEPRESSION** - "We have 100% results for people who suffer from anxiety and depression."

**ARTHRITIS** - "My patients have told me that their arthritis has been relieved very quickly in the chamber."

"It is my opinion that this is a powerful energy enhancer. It promotes a very deep state of ultimate relaxation from which all types of healing can occur." - Dr. Victor Marcial-Vega

**IN SUMMARY**, reinvigorate your body while rejuvenating your senses by using the world's most scientifically and clinically verified True Bio-Scalar Technology. Recharge your core energy base in minutes. Reverse aging and reduce stress on the first visit. Rid your body of inflammation.

### WHAT PEOPLE ARE SAYING

"Attending the EES was such a beautiful experience, what a feeling of calmness it brought to me! You can feel the energy when you walk in the door. The first session I had a tingling energy in my arms and slight heaviness in my head. After the second session, I had so much clarity and a feeling of being present and aware. Even my eyesight seemed clearer. My body felt energized but calm. I am sleeping better. Menopausal sweats declined to almost nothing and Inflammation decreased. Even my skin seems smoother." - Belinda, Australia

"Knee pain that I've had for almost 20 years is slowly getting better. I have been having electrical type shooting pains in my legs that have almost totally stopped! It is so relaxing and energizing. I always feel great after a session." - Janet in FL

"I hurt my shoulder about 2 years ago and have been going to Chiropractor for 2 years but still had pain. I couldn't lift my arm past my elbow without severe pain. After two hours in the EES energy room pain is gone and I can lift my arm straight up over my head. Blood pressure has always been high since high school and have been on Lisinopril. My pressure is 150/90 which is the best it could be, as I am 77 years old and no medication now. Vision was cloudy in my right eye and now my eye is clear." - Anthony D, FL

"I am post DCIS breast cancer surgery, the large, hard tissue area surrounding the incision began to decrease with each session and inflammation was breaking apart. It has reduced from the size of a bar of soap to about a quarter size now! My chronic sinus congestion and allergy cough I had for 2 months went away. I have an extreme increase in energy levels and I feel recharged when I leave!" - Candi A., TX
